MAZEN AL-HAJOURI

INFORMATION TECHNOLOGY STUDENT | SOFTWARE • NETWORKING • SYSTEMS

Yemen | maz719alhajouri@gmail.com | LinkedIn | GitHub

PROFILE

Third-year Information Technology student at Al-Hikma University with project and lab practice in web and desktop development, relational databases, networking and virtualized Windows environments. Interested in practical IT support, software development, networking and continued professional growth.

TECHNICAL SKILLS — HANDS-ON PRACTICE

Web: PHP, HTML5, CSS, JavaScript fundamentals • Desktop: C#, Windows Forms, LINQ to SQL
Databases: SQL Server, MySQL concepts • Tools: Git, GitHub, Visual Studio
Networking/systems labs: GNS3, IPv4/subnetting, routing and OSPF concepts, VLAN/STP concepts, VMware, Windows Server, Active Directory, DHCP, WSUS and Syslog exposure.

CURRENTLY DEVELOPING

CCNA-focused networking study (not a completed CCNA certification); cybersecurity fundamentals; object-oriented design and software architecture; responsive web interfaces; and further Windows Server/network services practice.

SELECTED PROJECTS

- **Bank of Documents — Collaborative Information System** — Requirements analysis, DFD/UML diagrams, data dictionary, WBS, workflows and Jira task planning for a system to archive, search and share official documents.
- **Aljadbi — Wedding Kousha Rental** — Yemeni wedding kousha rental concept with a public prototype; browsing, price discovery, date selection, booking requests and customer-owner chat. GitHub | Prototype
- **E-Commerce Website** — PHP-based online store with product browsing, login/registration, cart features and admin product management. GitHub | Live demo
- **Personal Expenses Manager** — C# Windows Forms personal-finance app using SQL Server and LINQ to SQL. GitHub
- **Our-School Website** — School-themed website for practising page structure and front-end development. GitHub

EXPERIENCE & VOLUNTEERING

Volunteer — Burouj Technical Exhibition / SMART-EX | Sana'a, Yemen | 11–14 October 2026
Volunteer participation in a technology exhibition focused on computing, communications and digital transformation. Add precise duties and final certificate details once confirmed.
